Period for Reply -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 12 February 2010.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1,9-17,31,32,34,51-53,67-69 and 77-85 is/are pending in the application.
- 4a) Of the above claim(s) _____ is/are withdrawn from consideration.
- 5) ☐ Claim(s) _____ is/are allowed.

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(c), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(c) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on February 12, 2010 has been entered.
2. Claims 1, 9-17, 31, 32, 34, 51-53, 67-69, and 77-85 are currently pending and under examination.

Information Disclosure Statement

3. The information disclosure statements (IDSs) submitted on February 12, 2010, March 30, 2010, and June 1, 2010 are being considered by the examiner. The signed 1449 forms are attached with the instant office action. The hypertext link has been removed from some of the citations.

Withdrawal of Rejections

4. The rejection of claims 1, 9-17, 31, 32, 34, 51-53, 67-69, and 77-80 under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention is withdrawn based on the amendment to the claims.

5. The rejection of claim 14 under 35 U.S.C. 112, first paragraph, scope of enablement is withdrawn based on the remarks filed February 12, 2010 and the IDS filed June 10, 2010 that showed nasal administration of low dose PYY.

Pending Rejection(s)

Double Patenting

6. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the “right to exclude” granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned

with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

7. Claims 1, 9-12, 14-17, 31, 32, 34, 51-53, 67-69, 77-85 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-18 of U.S. Patent No. 7,459,432 (U.S.S.N 10/490,776) in view of Beeley et al. (U.S. Patent 6,956,026).

Although the conflicting claims are not identical, they are not patentably distinct from each other because the claims are of overlapping scope. The claims of the issued U.S. Patent 7,459,432 are drawn to a method of decreasing calorie intake, food intake or appetite in a human subject in need thereof, comprising peripherally administering prior to a meal to said subject PYY₃₋₃₆ (SEQ ID NO: 334) in a dose of from 5 to 100 nmoles per 70 to 75 kg body weight of said subject. Particularly claim 5, which depends from claim 1 further comprises administering an additional appetite suppressant to said subject (see claims 1-18).

Beeley et al. discloses that GLP-1 is a known appetite suppressant in the art (see claim 17).

Therefore it is *prima facie* obvious to the person having ordinary skill in the art to decrease calorie intake, food intake, or appetite in a human subject in need thereof by administering both PYY₃₋₃₆ and exendin (a GLP-1 agonist thereof), because the art has shown both compositions to fulfill the function currently claimed and disclosed.

Conclusion

8. No claims are allowed.
